

## *Kofure Guesthouse*

### *Hosts - Yariyari Family*

Kofure has been operating for more than 40 years at the point where traditional stories say the sun rises.

It's a beautiful sight on a nice morning.

Kofure can take groups of up to 10 guests and is the guesthouse closest to the resort.

A canoe safari into the bay can be combined with hikes up through the string of beautiful villages on Sefoa ridge to Kikita where you have a majestic view of the fjords and ridges. From there you can walk down through virgin forest to the Bay

# Yavi Guesthouse

*Hosts - Peter & Peter*

Yavi is the newest guesthouse in Cape Nelson, just opened up in January 2013, it is located next to the water in a small village a short distance from the resort, There is snorkelling in front and rainforest treks behind, perhaps ask for a outrigger canoe and explore the fjords on either side.

## *Baga Guesthouse*

*Hosts - Godwin & Anna*

Just a 30 minute canoe ride south of Tufi this guesthouse has a beautiful view of the small bay between Komoa and Baga. There is a nice swimming hole in the forest right behind.

Take an outrigger safari into the majestic Amuian Bay where the virgin rainforest gradually closes in on the steep shores. If you enter the small side bay and walk up through the forest you'll be rewarded with the highest waterfall in the area, dropping into a big swimming pool.

There are three white sand beaches a short distance from the guest house and there are many good snorkelling spots.

## *Garewa guesthouse*

*Hosts - Fabien & Mildred*

With its wonderful position on the point between the white beaches of Garewa the guesthouse offers both glorious sunrises and sunsets and a great base for swimming, snorkelling and fjord excursions.

Boulder waterfall is just a short canoe ride followed by a short trek into the bay, it is a special sight and a great place for a swim and a shower under the waterfall.

Garewa is the best snorkelling spot in the vicinity of Tufi and the resort. Its home to a myriad of tropical fish and has a great variety of corals.

## *Jebo Guesthouse*

*Hosts - Lancelot & Windorah*

At Jebo you will enjoy a sensational white sandy beach on the threshold of your bedroom.

Here you will find great snorkelling and you will have a great starting point for visits to Orotoaba village or to paddle into Uramanoa Bay where two of the three waterfalls coming down from the steep shores end up straight in the fjord – an invitation for a swim!

## *Orotoaba Guesthouse*

*Hosts - Jackson & Pamela's*

Orotoaba is a particularly beautiful village with its well-tended lawns, its coconut boulevard and its elevated views of the ocean and the fjords.

It is the ideal spot for rainforest excursions and it is a prime spot for watching the Birds of Paradise. You need to walk for an hour on narrow paths to get up to the lek tree where they put on their courtship displays, but what a reward.

From Orotoaba you can also start longer treks, south to Siu and Awanen or north to Tumari. Both Tufi and Sefoa ridges are also connected to the paths in the back forest.
